SUMMARY OF QUALIFICATIONS

Working as a Senior Consultant at Informatica's Professional Services, bringing over 7 years of experience in consulting and development includes various domain like Insurance, FMCG and Banking. He possesses expertise in **Informatica Cloud including Cloud Data Integration, Cloud Data Quality, Cloud Application Integration, Profiling, and MDM SaaS**, as well as on-premises Informatica Data Quality.

WORK EXPERIENCE

Informatica Business India Pvt. Ltd., Bangalore

Jan,2022 - Present

Senior Consultant

- Experience in Informatica Cloud tools includes Profiling, Cloud Data Integration, Cloud Data Quality, Cloud Application Integration and Integration with MDM SaaS. Also worked on Informatica Data Quality, SQL, shell scripting and have experience of Unit Testing, Code Migration and Deployment.
- Actively working on Data Profiling, Creating Business Rules & Maplets working with Mappings and workflows/taskflow Design.

Wipro Limited, Pune

July, 2021 - Dec, 2021

Senior Software Engineer

Cognizant Technology Solutions, Kolkata

Mar, 2018 - Jul, 2021

Associate

TECHNICAL STRENGTHS

Informatica Tools

Informatica Cloud(IDMC) - CDI, CDQ, CAI, MDM SaaS, IDQ, Analyst

Programming Languages

Core Java, Python, SQL

Scripting Language

Shell Scripting, Python

Database

Oracle, PostgreSQL, MS SQL Server

Cloud

Azure - Azure Data Factory

CERTIFICATION

- **Data Quality 10 Developer**, Informatica Certified Professional
- **IDMC Cloud Data Quality**, Professional Certification
- **IDMC Cloud Data Integration R41**, Professional Certification
- **IDMC Cloud Application Integration R42**, Professional Certification
- **IDMC Cloud Data Governance & Catalog**, Professional Certification

PROJECTS

Project: 1

Data Integration with MDM SaaS and CAI

Current

Tools: Informatica Cloud - CDI, CDQ, MDM SaaS, CAI

Project Objective:

Worked on the project to build the pipeline for performing the Enrichment of Data. The process involves **ZoomInfo API** to get the data and Enrich the Customer Data. This project involves creating PowerShell scripts used in Data Integration to Patch the data into MDM SaaS. Created the CAI Scheduler which is used in project to schedule jobs includes Ingress/Egress Jobs and Taskflow from Data Integration.

Responsibilities:

- Understanding Existing Data Model
- Creation of PowerShell Scripts to Load the ZoomInfo data from API and Scripts to patch MDM using Informatica API's
- Supporting the team in Testing and Bug fixes

Project: 2

Data Integration and Quality Implementation for MDM Modernization

Tools: Informatica Cloud - CDI, CDQ, MDM SaaS, IDQ 10.5

Project Objective:

Worked on MDM Modernization project to build Data pipelines to load data from on-premises MDM to Informatica Cloud MDM SaaS for 4 Business Entities. We worked on Initial Data load strategy to load the existing data from their on-prem system to MDM SaaS and then we build pipeline to load Incremental Data to MDM SaaS. There are various source systems for each Business Entities where data loaded to the Cloud.

Responsibilities:

- Understanding Existing On-Premises Landscape
- Building OOTB Business Entities Data Model to load to the MDM SaaS consolidating on-premises attributes.
- Creation of Data pipelines for Initial and Incremental Data load.
- Worked on the Data Movement Control (DMC) Reports
- Supporting the team in Testing and Bug fixes

Project: 3

Developed Data Quality and Integration solution for leading hospitality company

Tools: Informatica Cloud - CDI, CDQ, Oracle

Project Objective:

Implemented and Designed lift and shift strategy-based cloud modernization project to migrate On-Prem Data Integration/Data Quality workflows/jobs to Cloud. The project included migration of around 75 mapplets (Reusable code abstracts), 19 mappings and 8 workflows with code complexity revolving around high to medium.

Responsibilities:

- Understanding Existing On-Premises Landscape
 - Designed translation strategy for transformations and respective Naming conventions.
 - Performed extensive testing with the Technical Preview of the Conversion Utility.
 - Implemented conversion strategy and migration design for complex code pieces.
 - Plan and execute Test strategies along with Customer and Test Teams
-

Project: 4

Provided consulting services and Implementation to a major bank

Tools: Informatica Data Quality 10.2, MS SQL Server

Responsibilities:

- Worked with business and technical team to understand the problem and provide the solutions.
 - Developed Data Quality Standardization and Validation Rules.
 - Integrated MDM Batch Job execution within IDQ.
 - Developed multiple process flows to load data into MDM.
 - Provided multiple Demos on IDQ Implementation use cases.
-

Project: 5

Title: Data Quality Framework Development-Developer

Tools: Informatica Data Quality 10.2, Oracle, Unix, Hive

Project Objective:

Implementation of various Data Quality rules on source data to identify the good and bad data.

Responsibilities:

- Perform column data profiling to generate profiling report and manual analysis of those reports to identify the health of data.
 - Creation of mappings and workflows in IDQ.
 - Creation of Shell script to automate the workflow invoke.
 - Unit testing,negative testing with sample data.
 - Code migration into QA and Production.
-

Project: 6

Title: Data Quality Framework Development-Developer

Tools: Informatica Data Quality 10.2, Oracle, Unix, Hive

Project Objective:

Implementation of various Data Quality rules on source data to identify the good and bad data.

Responsibilities:

- Perform column data profiling to generate profiling report and manual analysis of those reports to identify the health of data.
- Creation of mappings and workflows in IDQ.
- Creation of Shell script to automate the workflow invoke.

- Unit testing,negative testing with sample data.
- Code migration into QA and Production.

EDUCATION

Feroze Gandhi Institute of Engg. & Technology, Raebareli
B.Tech (Computer Science and Engineering)

August,2013 - June,2017
Overall Percentage: 74.0

Gopal Saraswati Vidya Mandir Inter College, Raebareli
Intermediate (Science Stream).

July,2010 - June,2012
